Full-stack web developer with a passion for JavaScript and React. I would love to join an innovative team that is working in the web3 field and takes participation in creating safer and more reliable services for people.

SKILLS

JavaScript, React, Redux, HTML5, CSS3, Scss, Tailwind, Ruby, Rails, PostgreSQL, Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Remote Pair-Programming, Teamwork, Mentoring

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

September 2022 – Present

[BookStore](#) | [GitHub repo](#) — This is a BookStore app that allows users to store books and update progress.

- Developed user interfaces with React.js, and designed a RESTful API using Ruby on Rails.
- Created dynamic forms to allow users to add, edit, and/or delete books.
- Utilized Redux to track and maintain the state of the application.
- Utilized LocalStorage to store users reading progress.

[FakeStore](#) | [GitHub repo](#) — This is a store app that provides information about available products and their details.

- Developed user interfaces with React.js, filtering products by their categories and providing search functionality.
- Utilized Redux to track and maintain the state of the application.
- Used [FakeStore API](#) to render the products and their details.

MICROVERSE

Remote

Professional Projects' Reviewer, Part-time

February 2022 – Present

- Reviewing more than 30 professional skills projects such as resumes, and LinkedIn/GitHub profiles in a week.
- Proposing suggestions and changes to enhance graduates' employability and ease the job-hunting process.

Unilab

Georgia

Front-end Developer Intern

December 2021 – March 2022

- Worked on a real-world project in a collaborative environment with the project manager, designers, and developers' team and improved presentation skills.
- Collaborated on building a full-stack educational application for aspiring young programmers with an interest in solving math problems with Python, the app was built with technologies such as JavaScript, Sass, and Python.

EDUCATION

MICROVERSE

September 2022 – Present

Remote Full-stack Web Development Program, Full Time.

- Spent 1000+ hours mastering algorithms, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

Free University of Tbilisi

International Relations, Middle-East studies

September 2013 – July 2017

- Demonstrated great skills in acquiring new languages: Arabic, and French.
- Took an active part in interdisciplinary interactions within the university and was awarded as one of the best presenters at the conference.
